

The Great Fire Of London

London Before the Fire				How the Fire Spread							
1	Happened in 1666.			8	Wind helped the fire to spread.	9	Wooden houses helped the fire to spread.	12	Fire hooks were used to pull down buildings. 		
2	Happened in London.										
3	Houses in London were made from wood. 										
	4										
Houses were built close together.											
How the Fire Started					London After the Fire						
5	Started in a bakery on Pudding Lane.	6	The fire began on 2nd September 1666.	7	A spark in the oven started the fire.	15	Important London landmarks were destroyed.	16	Lots of people were left homeless.	17	Samuel Pepys wrote a diary about the fire.
						18	Pepys buried his cheese and wine to keep them safe.	19	After the fire, London was rebuilt using brick and stone.	20	Streets were made wider and safer after the fire.
